BATHROOMS

2014 Collection

Timeless design,  
Quality, Value,  
& Simplicity

**HERITAGE**  
BATHROOMS

Simply Classic

Your home deserves a bathroom of timeless design and lasting quality; at Heritage we don't just make it possible, we make it simple. Every Heritage bathroom is inspired by generations of style and the very latest innovations.

We think designing a bathroom should be both enjoyable and simple. The following pages are packed with ideas to get you started. You'll also find handy design and inspirational tools at [heritagebathrooms.com](https://www.heritagebathrooms.com)

# Everything it takes to create your ideal bathroom...

## It starts with brilliant product design

Britain is a magnet for talented designers which is why we create our products here, employing our own in-house team. As you'll see in the following pages, they have a real flair for creating bathrooms that not only look beautiful, but work beautifully too.

We pay the same attention to the inner workings of our products, incorporating the latest technical ideas, such as water-saving cisterns. Components are designed for purpose, to ensure they give reliable service for years to come.

If you're looking for a memorable bathroom you can forget about in everyday use, you've found the right company.

## Add guaranteed quality

We use the latest manufacturing processes and have a rigorous inspection programme to ensure that your order arrives in perfect condition. Then for added peace of mind we provide straightforward, no quibble guarantees lasting between 2 and 25 years.

You're also guaranteed quality service. Our customer service team is fully trained to answer your questions, as are our showroom partners, and we're set up to deliver most UK orders within 24 hours of receipt.

## A simple process

There's a lot to think about when planning a bathroom, from making your style choice to deciding where to place that spectacular standalone bath. On our website you can pin our products on to mood boards.

Check out our blogs and guides for additional inspiration or of course go in-store. Our showroom partners will be delighted to help you with planning your room and have 3D design systems with which to fine tune your ideas.

## Exceptional value

Whether you want to realise your most spectacular and lavish ideas at home or fit a simple, functional suite, you'll find we offer competitive pricing, superb quality and a first class service.

You'll also enjoy great value from your bathroom for years to come in the shape of trouble-free use, a solid warranty and attentive after sales care. It's why so many customers choose and recommend us, time after time.

## Bathroom Collections

Heritage Bathrooms' collections combine classic British design with superb quality and practicality. In stylistic terms we cover every base, from sweeping Victorian grandeur to contemporary chic, and there are many ways you can personalise your suite, using our taps, fittings and furniture.

We've shown our ranges with a "price from" cost – based on a basin, WC and bath – so you can see how accessible they are to purchase. We've also shown them configured with different options, including freestanding cast iron and acrylic baths and furniture, for a more aspirational look.

## Basins, WCs and Bidets

The perfect bathroom starts with the sanitaryware; it's an easy way to set the tone for a beautiful, timeless design.

At Heritage, we have a beautiful collection of basins, WCs and bidets available in a choice of flexible size solutions. Match them with a fitted bath (p 100-107) or a stunning freestanding cast iron (p 88-93) or acrylic (p 94-99) bath to complete the look.

For larger images please see page 122.

Finishing Touches

Rhyland is one of our most versatile designs with a huge range of options to fit any size of bathroom or cloakroom. Be sure to add taps and accessories to complete the look.

We developed the Heritage range of accessories to match our more traditional suites such as Rhyland. This tumbler holder is just one of many pieces available.

See page 178.

Rhyland taps and wastes are a natural partner for Rhyland sanitaryware with classic Victorian detailing concealing modern brassware technology.

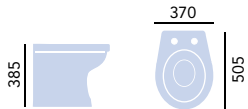

See page 144.

Venice

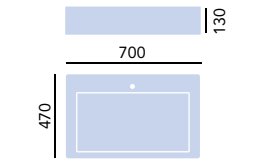

The Venice block basin provides a striking feature for your bathroom or cloakroom.

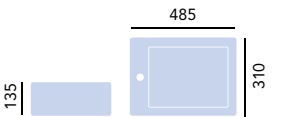

**500 Block Basin**  
PVN501 1 Taphole Basin **£345**  
Use with Fresso 500 Drawer Unit only.

**700 Block Basin**  
PVN701 1 Taphole Basin **£395**  
Use with Fresso 700 Drawer Unit only.

**Slab Basin**  
PZW131L 1 Taphole Basin **£179**  
Use with Fresso Cloakroom Door Unit, or wall mounted.

The boldness of Venice with its squared off profile works brilliantly with minimalist Fresso furniture. Venice block basins are available in 700 and 500 sizes. The Zaar slab basin is a simple alternative if you have a cloakroom or small second room. Fresso furniture is a very simple but beautiful design offering great practicality and durable quality.

- Easy maintenance**

Lifestyle™ finishes on the Fresso range of furniture are sustainably sourced, durable and easy to maintain.
- Taps to match**

Venice block basins come with a single taphole for a mixer tap – the Fairport range (above) is a good match.
- Quality guaranteed**

Our sanitaryware is designed in the UK and guaranteed for 25 years with WC cisterns guaranteed for 10 years.

**LIFESTYLE**

Easy to maintain, sustainably sourced Realwood Lifestyle furniture

**REALWOOD**

Naturally produced and sustainably sourced furniture

# Baths

Taking a good long soak in the bath is a treat, a luxury. Baths have once again become the centrepiece of the bathroom, as much a statement of style as a practical means of bathing.

Ours are manufactured to the highest standards and guaranteed for 25 years; so whether you opt for a romantic ‘rolltop’, dual-purpose showerbath, or decide to express yourself by painting it in a colour of your choice, by choosing Heritage you are making an excellent, informed decision.

## Contents

- 88 Cast Iron
- 93 Feet, Wastes & Shrouds
- 94 Freestanding Acrylic
- 100 Fitted Acrylic
- 108 Showerbaths

Cast Iron Baths

Cast iron roll top baths make a statement in even the most modern homes. Heritage is the UK market leader for cast iron baths. Ours are designed with characteristic white ‘ripple’ enamel interiors, ready to paint exteriors and traditional ball and claw feet.

The Buckingham Range

Buckingham is our most popular cast iron bath design. Loved by many for its traditional roll top styling and reassuring design. Now the Buckingham is available in three sizes; a Baby version is perfect for small rooms (or people!) while the Grand size is the perfect upgrade.

## Ready to paint

We love white – we're purists at heart – but colour coordinating the outside of your cast iron bath to complement your bathroom decor is a growing trend. One of the advantages of buying a Heritage cast iron bath is that it will be delivered sanded down, primed (with an undercoat already applied) and ready for your artistic inspiration. Most other baths on the market need to be primed first.

### Guidelines On Painting

Every bath exterior is coated with a smooth adhesion primer to ensure your paint adheres to the cast iron. If the primer surface suffers minor damage during transportation, it can be easily rectified when applying the final coat. We strongly advise using an acrylic, polyurethane or epoxy-based paint for longevity, but any kind of paint can be used.

**Lustre for life**

All our acrylic baths are guaranteed for 25 years. A long time. Every bath is sprayed with glass reinforced plastic (GRP) for steel-like strength and durability. None of that flexing you notice in cheaper acrylic baths. They look great too. Heritage baths are buffed to perfection. Each bath is polished by hand and has to pass our 'lustre metre' test for shine and gleam. Yes, we really do have a lustre metre. Our Solid Skin baths – look out for the logo – have an extra membrane to improve rigidity and heat retention so your bath water stays hotter for longer. Bath time is precious so the longer you can linger the better.

*Good To Know*

- Manufactured using CE and EN approved cast acrylic to CE standard approval
- European white acrylic – a standardised colour to match other bathroom products perfectly
- 5mm thick internal and external sheets

Fitted Acrylic Baths

Solid, durable and beautifully designed, in a choice of classic styles. Our extensive range includes options to match our key ranges including Granley, Dorchester and New Victoria, with plenty of other design options to help you complete your bathroom.

All our acrylic baths are made from sanitary grade cast acrylic that is stain and scuff resistant and colourfast. Baths are reinforced with a wooden baseboard, encapsulated under a thick layer of glass fibre for added strength plus a timber rim that supports the edge of the bath. Finally, every bath is trimmed to give a precision engineered finish.

heritagebathrooms.com

Look out for baths featuring our Solid Skin membrane which not only helps improve rigidity but its clever insulation technology also keeps the water hotter for longer, so you can enjoy a more indulgent soak.

**Bath Panel options**

At Heritage, we give you plenty of options to personalise your bathroom. Our bath panels are available in a choice of wood finishes to match perfectly with items from our Classic and Heritage furniture ranges, see page 120. Standard acrylic panels (see page 107) and Fresso gloss finishes (see page 129) are also available.

heritagebathrooms.com

see page 120

### Complete the look

Our quality collection of wood finish bath panels bring warmth and luxury to your bathroom. Available in a choice of five colours; Walnut, Oak (shown here), Oyster, Graphite and White Ash, the panels colour match with furniture from our Classic and Heritage furniture collections. See page 120 for more details.

Get the look that fits

Add the personal touch to your showerbath, choose from our range of shower valves and heads. A classic look and a perfect fit whatever your preference. See pages 160-169.

heritagebathrooms.com

## Furniture

Exceptional bathroom furniture should look beautiful, but be durable enough to withstand the unique stresses of everyday wear and tear. All of our bathroom furniture is designed and crafted in Britain.

The wood we use comes from sustainable sources, and our advanced construction techniques make installation a cinch.

And, each piece carries a five year warranty for complete peace of mind.

### Contents

- 112 Heritage
- 114 Classic
- 124 Fresso

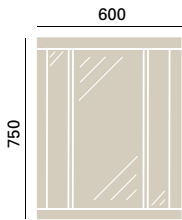

Heritage

Our Heritage stand-alone furniture is produced from solid oak timbers and Realwood Oak veneers. The range features beautiful vanity units that are specially designed to be combined with some of our most popular basins. The range also features coordinating mirrors, cabinets, tallboys and WC seats.

600mm Mirror

FHOA44      Oak      £280  
FHW44      Walnut      £280

Wall Cabinet

FHOA51      Oak      £575  
FHW51      Walnut      £575

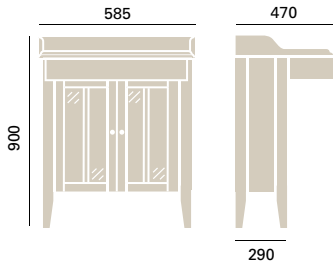

Price includes choice of handle, see page 122.

Freestanding Medium Bowfront Vanity Unit

FHOA20      Oak      £650  
FHW20      Walnut      £650

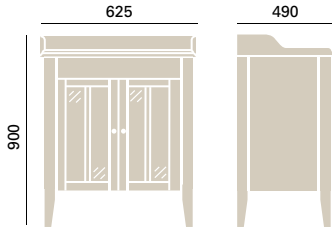

Use with Belmonte or Dorchester (depicted) medium basins, see pages 66 and 72. Price includes choice of handle, see page 122.

Freestanding Dorchester Square Vanity Unit

FHOA34      Oak      £650  
FHW34      Walnut      £650

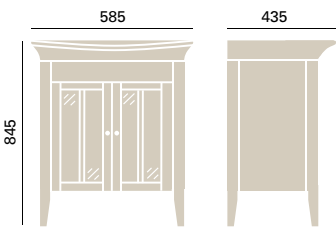

Use with Dorchester Square Basin PVEW053F or PVEW05F, see page 65. Price includes choice of handle, see page 122.

Freestanding Blenheim Vanity Unit

FHOAHP34      Oak      £650  
FHWHP34      Walnut      £650

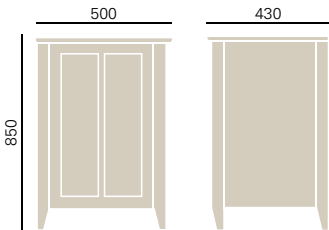

Price includes choice of handle, see page 122. Use with Blenheim Basin PHPW063, see page 60.

Small Freestanding Storage Unit

KOA74      Oak      £595  
FHW74      Walnut      £595

Price includes choice of handle, see page 122.

Cabinet decision

Furniture provides essential storage but also creates a distinctive character. Every unit is hand made in the UK – it's among the best! It is built to last. Durable 18mm carcasses and solid wood backs (as opposed to ply) ensure exceptional rigidity and resistance to long-term humidity. Soft close doors and drawers are standard because we want nothing to disturb your peace. And unlike other products on the market we deliver furniture rigid, not flat-packed. It saves you a lot of time and money in installation.

Good To Know

- All timber is from sustainably managed forests
- European Oak timber offers consistent colouring and a beautiful grain finish
- All edges are rounded, so no sharp corners
- Undersides finished to the same specification as outer surfaces
- Glass on mirrors and doors is EN-certified
- Available with a choice of handles

Installation Notes

- Classic and Heritage Style Vanity Units are available pre-cut for Heritage basins (Belmonte, Dorchester Square and Blenheim), and Classic Fitted Furniture can be pre-cut to fit all Heritage Medium Semi-Recessed basins. This means no on-site cutting around a complex curve, a common problem in bathroom installation.
- Fitted furniture comes with 200mm clearance (i.e. height of plinth). This allows the flush pipe to be run underneath the units without the need to modify on site. Greater accessibility means installation is easier. Our doors overhang the units by 50mm showing only 150mm of the plinth.
- Units all feature adjustable legs so they can be aligned easily without relying on a level floor.

heritagebathrooms.com

Classic

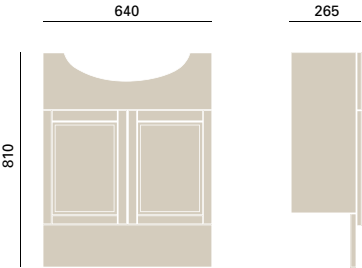

From a neat corner cupboard and vanity units in various widths to coordinating bath panels, this versatile collection has all the options you need for a beautiful, calm, clutter-free bathroom. Available in four popular colours, there’s a dream combination to suit your space, taste and requirements.

Spout projection	125mm	
Full height	150mm	
Min. operating pressure	1.5bar	
Valve	Single lever ceramic disc	

**Shine on and on**

Our brassware experts wax lyrical about the engineering and craftsmanship behind our taps. They're right to be proud but we'll be more succinct. Firstly, design: All Heritage taps are designed to match our showers and sanitaryware. Secondly, materials: We use high-grade brass. It's a beautiful material. The best. Thirdly, quality control: Every tap is examined for the merest imperfection – 'pin holes' invisible to the naked eye, bumps you can barely feel – and any that fail our stringent standards are rejected. Finally, peace of mind: All taps are guaranteed for 5 years.

[heritagebathrooms.com](http://heritagebathrooms.com)

**1 Taphole Bath Filler**

TCC071	Chrome	<b>£339</b>
Spout projection	120mm	
Full height	200mm	
Min. operating pressure	0.2bar	
Valve	Single lever ceramic disc	

**Bridge Bath Shower Mixer**

TCC02	Chrome	<b>£339</b>
Spout projection	140mm

Bracing bar detail

Silicone free sealing membrane suitable for tray or floor tiles

Our range of light, tough and beautifully slim shower trays will give your bathroom a sleek, contemporary look. The new twin-skin design encapsulates a specially formulated Featherweight™ stone resin mixture, which means every tray is:

- Easier to lift, position and install
- Colour-fast and colour matched to Heritage sanitaryware
- Stain and scuff resistant
- A rock solid platform for your shower

All Heritage shower trays are available in white only and come with a 25-year guarantee.

1

**One tray – two options**

If your installation can't accommodate a slim tray then simply add a panel and leg set which will allow access to the waste above the floor level.

2

**Level Entry**

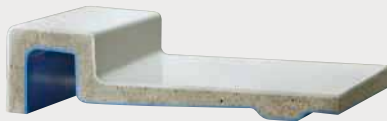

These are a slightly different construction, having a single acrylic skin reinforced with a sturdy baseboard and glass fibre, but with all the same benefits.

3

**Fast Flow Waste**

The unique design of the Heritage 90mm Fast Flow Waste is less likely to block and allows up to 32 litres of water to be carried away every minute.

A Fast Flow Waste is required for all Heritage shower trays SWC90 £37.

Featherweight stone resin mixture

## Tray chic

Shower trays might seem incidental in the grand scheme of things but they are absolutely integral to your showering experience. They should look beautiful, feel comfortable and be robust enough to stand up to continual use. As always,

we place the emphasis firmly on quality. A Featherweight™ stone resin mixture lies at the heart of our twin-skin design. It's stain and scuff resistant, colour-fast, colour-matched – exactly the same white as our sanitaryware – and solid

as a rock. Easy to lift and install too, so your plumber will be happy. Each tray is guaranteed for 25 years. That's well over 10,000 showers by our reckoning.

## Everyday luxury

Most of us shower more often than we get in the car. So choosing a shower deserves a lot of thought. You want a shower that feels as good as it looks, a shower that will never let you down. Heritage showers are precision engineered to provide a luxurious showering experience, with quality assured by a 5 year guarantee. All our shower valves are thermostatic so the

water stays a consistent temperature even if the water pressure fluctuates. A pleasure to use and safe for all the family.

### Good To Know

- All Heritage showers perform at 0.1 bar so work with every water system
- Valves are factory set at 42 or 43°C for comfortable showering and minimal risk of scalding

- Traditional designs come in chrome or gold – the gold matches the gold we use across our collection

### Mix & Match

We've designed our shower collection with flexibility in mind. Now you can buy heads and valves separately and match them up to create your perfect shower. If you want help, call us.

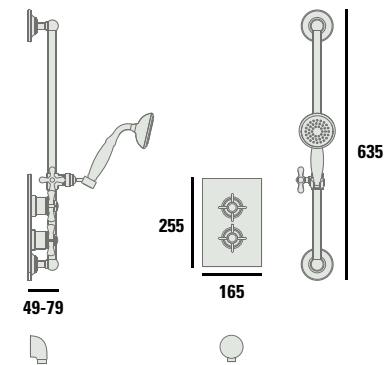

### Dorchester

#### Concealed Valve with Deluxe Flexible Kit

SDCDUAL01	Chrome	£500
SDCDUAL04	Vintage Gold	£650

Valve type: Thermostatic	Plumbing system: All, preferably balanced
Operation: Dual control	Temperature: Preset max 42°C
Connection inlet: 15mm compression elbows with 150mm centres	Surface mounted: No
Connection outlet: 15mm compression	Recessed: Yes
Working pressure range: 0.5 - 5.0 bar	Minimum fitting depth 45mm
Flow rate: 9.0 l/m at 0.2 bar Flow rate is without hose/showerhead	Hose outlet included Ceramic Disc

Pick and Mix

At Heritage, we know that you like to add a personal touch when it comes to your bathroom. That’s why - in addition to offering complete showers - we also give you the option to ‘pick and mix’ your shower valve (control) with a fixed head, fixed kit or flexible kit of your choice.

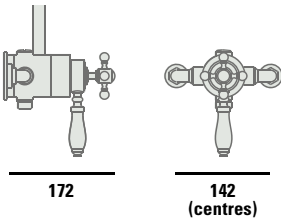

Traditional Valves

Pick one of the following traditional valves – available in either chrome or gold – and mix with one of the showering accessories over the page to create your own showering system.

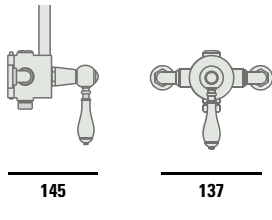

Heritage Dual Control Exposed Valve With Bottom Outlet

SHDC01 Chrome £555  
SHDA01 Vintage Gold £649  
Suitable for use with a flexible kit and shower handset.

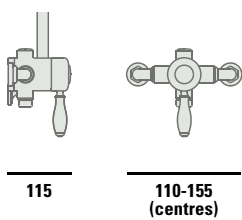

Granley Single Control Exposed Valve With Top Outlet

SGC01 Chrome £360  
SGA01 Vintage Gold £405  
Suitable for use with a fixed kit.

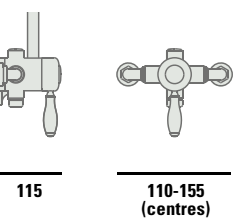

Rhyland Single Control Exposed Mini Valve With Top Outlet

SLC03 Chrome £215  
SLA03 Vintage Gold £240  
Suitable for use with a fixed kit.

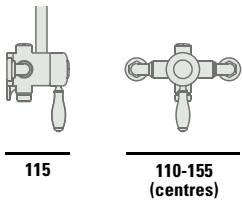

Rhyland Single Control Exposed Mini Valve With Bottom Outlet

SLC04 Chrome £215  
SLA04 Vintage Gold £240  
Suitable for use with a flexible kit and shower handset.

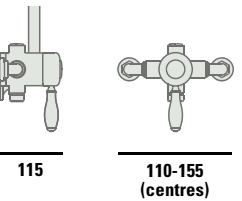

Rhyland Dual Control Exposed Mini Valve With Top Outlet

SLC05 Chrome £275  
SLA05 Vintage Gold £315  
Suitable for use with a fixed kit.

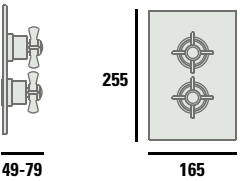

Rhyland Dual Control Exposed Mini Valve With Bottom Outlet

SLC06 Chrome £275  
SLA06 Vintage Gold £315  
Suitable for use with a flexible kit and shower handset.

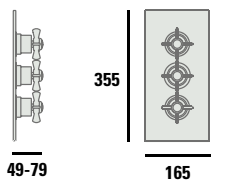

Dorchester Dual Control Recessed Valve

SDC04 Chrome £329  
SDA04 Vintage Gold £450  
Concealed valve. Suitable for use with either a flexible kit or fixed head.

Dorchester Dual Control Recessed Valve With Twin Integral Stopcocks

SDC05 Chrome £389  
SDA05 Vintage Gold £500  
Concealed valve with integral diverter which allows use with both a fixed head and flexible handset.

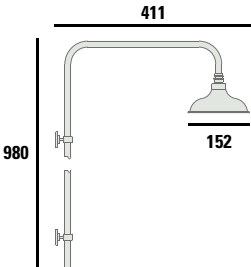

Traditional Shower Accessories

Match your traditional design valve from the previous page with the accessories below to create your own shower design.

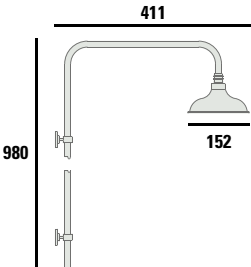

Traditional Fixed Kit

STC07 Chrome £220  
STA07 Gold £265

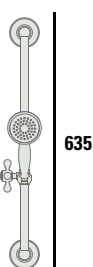

Traditional Deluxe Fixed Kit

All Heritage style heated towel rails include a pair of valves at no extra charge. They are also available to buy separately. Can be used for wall and floor plumbing connections.

# Useful Information

## Showers

### Linear & Walk-In

Our range of linear and walk-in showers featured on pages 152-155 are not water tight shower cubicles and as such there will inevitably be some water that escapes onto the floor and walls outside the showering area. The floor of your bathroom needs to be tiled or some other flooring that is resistant to water penetration. We would recommend that the area immediately around the enclosure is water proofed – this is best practice even when more conventional shower enclosures are used.

### Level entry shower trays (STW12)

These trays are just 40mm thick. Achieving a level entry installation relies on recessing them into the floor boards, overboarding the floorboards around the tray and tiling on top. The thicknesses of the tiles and materials you use will vary and the installation will need to be planned on site.

For more information on integrated shower installation and level entry trays visit our website or contact our Technical Helpline.

## Baths

### Acrylic baths

The white acrylic used has been specified to match the colour of our sanitaryware. As it is a different material, and reflectivity of materials vary, in some light conditions the white may look a little different.

Heritage bath panels are designed to go with Heritage baths, a 1700 panel for a 1700 bath etc.

White plastic, corner and Fresso bath panels are a fixed height and when used in conjunction with one of our baths allows the bath trap to be installed above the finished floor in most cases.

### Cast iron baths

Cast iron baths are products that are notoriously difficult to make and the process of manufacture is expressed in intrinsic characteristics such as a degree of surface ripple, dimples and miniscule black specks within the interior. These features are quite normal and will not affect the life of the bath, they are part of what makes a cast iron bath a cast iron bath!

The outside of the cast iron bath is now smooth and primed ready for painting – this preparation is not intended to be the finished surface and may suffer some minor damage during transportation which will be easily rectifiable when you paint the outside in your finished colour.

This brochure supersedes all previous issues of the Heritage Collection with effect from the issue date shown until replaced by a new edition. All rights reserved. No part of this work may be reproduced, utilised or stored in any form or by any means without written permission from Heritage Bathrooms. E&OE. Prices correct at time of print.

Care has been taken to ensure colours in this catalogue are as accurate as possible, but the limitations of photography and the print production process may mean slight variation. All measurements are approximate.

## Basins, WCs & Bidets

Dimensions quoted for our products are ‘approximate’ in line with normal business practice, NOT to indicate a lack of attention to detail, but in the case of sanitaryware production to indicate that the process is inexact.

If precise measurements are required then it is always best to measure the actual pieces when they are delivered and plan your bathroom around them.

Every effort is made to ensure our sanitaryware is straight and level, and our standards are significantly higher than those set out in the current British standards, however, when used on furniture, for example, there will be situations where an inexact basin will meet a perfectly straight worktop and sealant will need to be applied to fill any inconsistencies, ensuring a stable fit and sealing the furniture from water ingress.

The 25-year guarantee on sanitaryware extends to the ceramic pieces only. The cistern fittings are guaranteed for 10 years.

The inlet on all our ceramic cisterns is on the bottom right hand side, unless stated otherwise.

### Heritage Logo

The word Heritage or the letters hb are used as a hallmark to denote genuine Heritage product.

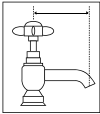

## Taps & Shower Valves

Heritage taps are designed to be compatible with Heritage sanitaryware and baths. A 1 taphole basin mixer will be suitable for any 1 taphole basin, the few exceptions to this rule will be highlighted in the directory section.

The majority of Heritage taps and shower valves have been engineered to operate on low pressure making them compatible with all plumbing systems. The minimum operating pressure for each tap and shower valve is stated in the directory for you to confirm compatibility with your installer.

### Measuring tap spout projections

Spout projection measurements refer to the dimension from the centre of the body to the centre of the spout.

## Metal Finishes

Chrome is an extremely durable plated finish which is applied to a variety of fittings in a consistent manner.

Vintage Gold is either a high tech hard wearing finish applied to high use fittings such as taps and showers or a plated finish we use on shower kits, hoses and accessories where the high tech version would be overspecified and cost prohibitive.

Close inspection may show some colour variation which is normally acceptable given the relative distance between individual fittings when installed.

**Heritage Bathrooms** is a member of the Bathroom Manufacturer's Association [www.bathroom-association.org](http://www.bathroom-association.org) and a corporate member of the Kitchen and Bathroom Showroom Association [www.ksa.co.uk](http://www.ksa.co.uk) ® Registered trademark of Heritage Bathrooms. ### European Water Labelling Scheme

Products within the Heritage range are accredited by the European Water Label Scheme therefore meeting industry standards for water efficiency. For a full list of accredited Heritage products and for more information please visit [www.europeanwaterlabel.eu](http://www.europeanwaterlabel.eu)

## Furniture

### Lifestyle™

Lifestyle finishes are artificially produced foils applied to MDF and are naturally durable, water resistant, easy to maintain with a consistent look whether they are a solid colour or faux wood grain. We recommend you choose a Lifestyle finish to withstand the everyday use of a busy household.

### Realwood™

Realwood finishes use natural real wood. The door frame and scoop of a vanity unit, for instance, is made from solid timber, the door infill and worktops made from a real wood veneer (a thin layer of real wood) bonded onto MDF or chipboard.

Realwood matures over time and you will notice a difference in the strength of grain and colour saturation from item to item. We recommend Realwood if you enjoy the individual natural look and are prepared to spend a little time keeping your bathroom clean and dry.

Due to the materials used and the environment in which they can be installed our 5-year furniture guarantee is subject to certain installation and care criteria being met. Complete details of these conditions can be found on our website but are essentially common sense and good practice for any bathroom.

You can buy our furniture with confidence that you are not contributing to global forest destruction.

Heritage furniture is sourced from forests that are managed to ensure long term timber supplies while protecting the environment and the lives of forest-dependent people.

## Guarantees

For your peace of mind, all Heritage Bathrooms products come with solid guarantees.

2 years for WC Seats (unless stated) and Stainless Steel Accessories

5 years on Bathscreens, Furniture, Shower Valves, Clifton Accessories and Taps and Wastes

10 years on Enclosures, Accessories (except Clifton) and Cistern Fittings

25 years on Acrylic and Cast Iron Baths, Sanitaryware and Shower Trays

Register your guarantee at **[www.heritagebathrooms.com](http://www.heritagebathrooms.com)** and click ‘Register Guarantee’ to complete the online form.

### How to claim

In the unlikely event that you encounter a problem with your Heritage bathroom products, you must, in the first instance, return to the place or person whom you purchased it from. They will be able to advise whether it is due to faulty product or faulty installation. If the problem is due to a manufacturing fault, they will contact us to arrange supply of a replacement product as soon as possible.

### How it works

Our commitment to you in offering this guarantee is to replace at our discretion, in part or whole, a product which is defective in operation, materials or workmanship\*.

This product guarantee applies to the original purchaser or end-user, is non-transferable and takes effect from the date of purchase. To be covered by this guarantee you must register upon receipt of products, all products should be installed and maintained in accordance with the instructions provided and be for domestic use only. Products must be purchased and installed in the UK only. This does not affect your Statutory Rights.

As is usual with product guarantees, Heritage will not cover products against accidental or malicious damage, improper use or negligence, general wear and tear, damage due to poor installation or servicing or consequential loss. Please keep a copy of your original invoice or receipt as this will be required to validate any claim. Guarantees vary and are subject to certain installation and care criteria being met. Complete details can be found on our website.

*\*If the exact product is no longer available, Heritage will endeavour to provide the nearest equivalent.*

### Terms and Conditions of Sale

Heritage do not sell direct to the consumer and as such your terms and conditions of sale are with the retailer where you purchased our products.

Heritage Bathrooms reserve the right to amend retail prices at any time. We recommend you discuss pricing with your chosen specialist supplier.

All prices in this brochure are recommended retail prices and include VAT at 20%. In the event of a change to the VAT rate, prices will change accordingly.

### Printing accuracy

Whilst every effort is made to ensure printing accuracy throughout this brochure, colour reproduction is always difficult. We recommend you view products in a showroom prior to purchase.

### Deliveries

We monitor our stock levels to ensure that all products are in stock. If for any reason the product ordered is not in stock then we will inform the retailer at the time of receipt so alternative arrangements can be made. 24 hour deliveries are made to the retailer and is dependent on the time of order.

A number of stores will receive consolidated orders, operate their own additional inspection procedures and/or receive goods into a central warehouse requiring onward distribution to multiple stores. These added value practices will inevitably impact on delivery lead times.

We strongly recommend that you thoroughly inspect your delivery before booking installation time and ensure all products are on site before beginning demolition of your old bathroom.

### Measurements and Design Specifications

All measurements are in millimeters and are for guidance only, some variation may occur. Heritage Bathrooms pursues a policy of continuing improvement in design and performance of its products and so reserves the right to change specifications without prior notice.
