HELP IN PLANNING YOUR NEW BATHROOM

Bathroom Ideas

It can often be hard to visualise how your new bathroom, shower room or en-suite will look. So, we've put together some inspirational room sets to help you out. It's no problem if you like the look but want to change a few things because all items can be bought separately to enable you to create your own dream bathroom.

Bathroom furniture

Our excellent collection of bathroom furniture gives you many different options from the fully fitted Elation collection to freestanding modular furniture as well as wall-hung and semi-fitted ranges. Many different finishes including "Putty" and Montana gloss (shown here) as well as a variety of wood finishes and of course gloss white.

Choosing your shower

Inside this catalogue there are a myriad of different shower options and combinations from a standard electric shower to multi function showers with bodyjets and even wireless digital showers that you can turn on whilst lying in bed...and will even notify you when it has reached your pre-set desired temperature level!

Choosing your bath

With one of the largest ranges of baths on the market you're sure to find the perfect one for you right here. From ultra modern and traditional freestanding baths to possibly the widest selection of showerbaths, as well as the increasingly popular double ended baths. Look out for "premier strength" upgrade on many of our baths.

Choosing your taps

With a growing trend towards waterfall style taps we have a number of different ranges inside for you to choose from – you'll be pleasantly surprised at just how affordable they now are. Look out for the eco-click water saving logo. Different finishes other than chrome are now making a comeback.

Choosing your heating

Heating your bathroom has come a long long way over the past 10 years with underfloor heating no longer the preserve of the wealthy, you will be amazed how affordable it is. We also have a wonderful collection of radiators from designer through

to functional. Many of our radiators are suitable for any room.

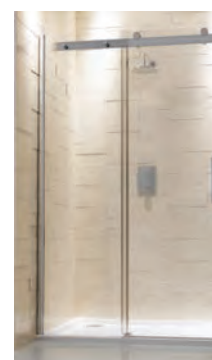

Choosing a WC and basin

Whether you're after the finest Italian designs, something a little different or just an 'every day' WC and basin, you'll find it here. Wall hung pans help to create a more spacious feel to your bathroom whilst flush fit WCs hide the pan connector. The Tetraron range has "hygiene glaze" technology

preventing bacteria build up.

Choosing your enclosure

We have a great range of enclosures to choose from. The new Technik 6+ range and the Technik 8mm roller range now come with easyclean glass as standard. We have extended our Technik 8mm deflector panel range which now has an optional 250mm hinged "flipper" panel which can

be added to any of the Technik deflectors range.

Finishing touches

The finishing touches can make all the difference to your dream bathroom. Whether you want the luxury of your own built-in waterproof TV to watch your favourite films or sport whilst relaxing in the bath or the latest LED illuminated mirror or even if you just want to replace your toilet seat, you will find it here.

Please note: Whilst every effort is made to hold stock of products advertised within this catalogue, circumstances may dictate that a lead time may be incurred in delivery of certain items at times due to differing factors such as supply chain, manufacturing, importation or high demand. With this in mind, please consider that work should not commence on your bathroom project until all items have been received and checked. As the products depicted within this catalogue are subject to continuous development and may be subject to change or upgrade over the life of the catalogue, please also check all dimensions and specifications before purchase to ensure suitability for your particular project. The producers and suppliers of this catalogue cannot be held responsible for any loss or extra costs incurred by the purchase of an unsuitable component.

COUTURE

COLLEZIONE ITALIANA

TO CREATE A DESIGNER BATHROOM THAT IS TRULY SPECIAL YOU NEED MATERIALS THAT ARE TRULY OUTSTANDING. THE CLAY USED IN OUR ITALIAN COUTURE COLLECTION IS ENGLISH CHINA CLAY FROM CORNWALL. IT IS LIGHT COLOURED AND WIDELY REGARDED AS THE BEST IN THE WORLD. THIS RESULTS IN THE GLAZE LAYER BEING SHARPER THAN LESSER QUALITY CERAMICS THAT USE DARKER, LESS EXPENSIVE CLAYS. ALL GLAZING IS APPLIED ROBOTICALLY GIVING AN EXTREMELY CONSISTENT AND SMOOTH SURFACE FINISH FOR A DESIGNER BATHROOM LIKE NO OTHER.

step by step

Use our easy 5 step guide to choose your bathroom furniture:

The Elation fitted furniture range provides a practical yet stylish solution to cloakroom and bathroom storage together with an enviable level of quality and choice. This versatile range can be installed fully fitted, freestanding with legs or wall hung. A solution for every space.

The Elation range now offers a Shaker style door in solid wood framed doors. Available in a new Natural Oak and a Walnut finish to match our existing Dark Walnut option.

The new Natural Oak finish will be unique to the Solid Range. The addition of these timber fronts adds to the already high specification of the Elation range.

range features:

- preassembled units for ease of fitting
- 18mm carcasses and doors for quality and durability
- slow close on all drawers
- soft-close on all doors
- double sided mirror doors
- front access WC unit for easy access to the cistern
- matching carcass interior
- solid 18mm backs to all units (except WC)
- vinyl wrapped doors, colour matched on reverse OR
- solid wood framed doors
- standard and reduced depth carcasses - can be fitted with plinth, wall hung or freestanding
- Elation solid surface worktops can be cut using standard wood working tools

AVAILABLE BY SPECIAL ORDER ONLY

step by step

Use our easy 5 step guide to choose your bathroom furniture:

Our solid wood framed Shaker door is available as a Special Order in new Natural Oak and Walnut finish. The new Natural Oak finish will be unique to this collection and our Dark Walnut finish will match the Walnut units on the previous page.

Using our 5 step guide, create your own unique look. The unit options can be found on the previous page.

These beautiful premium doors will enhance any of the carcasses found on the previous page (other than those marked with an asterisk).

The contemporary 'L' shape solid surface worktop with integrated basin will make an attractive addition to your bathroom when used with the deep vanity unit and standard WC unit.

BATHS

CONTEMPORARY & TRADITIONAL BATHS

With a vast range of baths of myriad types, sizes and styles, there is a bath to suit every taste and setting in this collection, from opulent freestanding baths to space-saving shower baths. A selection of whirlpool and airspa systems can also be fitted to many of the baths featured.

NEW

SYNERGY

SAN MARLO
FREESTANDING BATHS

£795

San Marlo freestanding bath
1680 x 750 x 600 high mm
Order Code: FSB001

Crafted from two high quality acrylic panels, each acrylic skin is given extra support with the resistant properties of resin bonded glass fibres on both the inner and outer linings.

NEW

ARRUBA
FREESTANDING BATHS

£895

Arruba freestanding bath
1680 x 720 x 740 high mm
Order Code: FSB002

KINGSTON

FREESTANDING BATHS

£825

Kingston freestanding bath
1700 x 800 x 595 high mm
Order Code: FSB003

For the added retention of heat, each panel is lined with thermal sheeting, ensuring total efficiency. Finally, a tight bond between each skin and the bath base is formed via the solidity of a polyester cast.

IBIZA

FREESTANDING BATHS

£965

Ibiza freestanding bath
1750 x 770 x 740 high mm
Order Code: FSB018

MONACO
FREESTANDING BATHS

£1,095

Monaco freestanding bath with integrated waste
1700 x 800 x 585 high mm
Order Code: FSB026

Never use solvents on the surface of the bath, these will cause permanent harm to its material finish. Instead, clean daily with a simple damp sponge or cloth and a small amount of soap water.

WESTMINSTER
FREESTANDING BATHS

£695

Westminster freestanding bath
1690 x 745 x 580 high mm
Order Code: FSM101

CHATHAM
FREESTANDING BATHS

£865

Chatham freestanding bath
1690 x 740 x 570 high mm
Order Code: FSB62

NEW

SYNERGY

SICILY

FREESTANDING BATHS

£955

Sicily freestanding bath
1590 x 740 x 580 high mm
Order Code: FSB59

FLORENCE

FREESTANDING BATHS

£1,250

Florence freestanding bath
1760 x 720 x 915 high mm
Order Code: FSB64

NEW

SYNERGY

WILMSLOW

FREESTANDING BATHS

£599

Wilmslow freestanding bath
1700 x 760 x 680 high mm

Order Code: FSB006 (Wilmslow bath) **£475**

Order Code: FSBF (ball & claw feet) **£124**

£619

Wilmslow freestanding bath
1800 x 800 x 680 high mm

Order Code: FSB007 (Wilmslow bath) **£495**

Order Code: FSBF (ball & claw feet) **£124**

Instant hot water into the bath could harm the high quality acrylic finish. So, before filling the bath with hot water, allow the bath to fill to a depth of one inch with cold water.

NEW

CAMBRIDGE

FREESTANDING BATHS

£499

Cambridge freestanding bath
1470 x 735 x 660 high mm

Order Code: FSB011 (Cambridge bath) **£375**

Order Code: FSLF (lion claw feet) **£124**

MARLOW

FREESTANDING BATHS

£799

Marlow freestanding bath
1750 x 750 x 720 high mm

Order Code: FSB010 (Marlow bath) **£675**

Order Code: FSBF (ball & claw feet) **£124**

Should a superficial surface scratch be created, car polishes and enamel cleaning liquids can be utilised in order to restore the sheen to the baths acrylic body.

BRENTWOOD

FREESTANDING BATHS

£599

Brentwood freestanding bath
small: 1550 x 730 x 780 high mm

Order Code: FSB008 (Brentwood bath) **£475**

Order Code: FSBF (ball & claw feet) **£124**

£699

Brentwood freestanding bath
large: 1700 x 730 x 780 high mm

Order Code: FSB009 (Brentwood bath) **£575**

Order Code: FSBF (ball & claw feet) **£124**

TAKING HYDROMASSAGE TO A NEW DIMENSION...

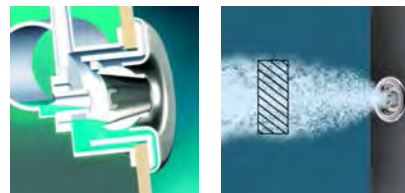

How BioJet works...

The patented BioJet is a major step forward in whirlpool technology, using the most advanced computer aided design to set the new world standard in hydrotherapy.

Water is drawn from the bath and forced back in through the BioJet nozzles. At the same time, air is mixed with the water jet. Using a unique process we call 'micro-mixing', millions

more bubbles than ever before are forced through the jets. The result is a powerful, invigorating effervescence through the water. BioJet features jets with special elliptical shaped eyeballs.

Unlike conventional round eyeballs they provide therapy that is more effective and wonderfully luxurious by covering a wider area of the body.

Standard jet and narrow effervescence

BioJet and wide effervescence pattern

5 REASONS TO BUY A BIOJET™ WHIRLPOOL AND SPA...

1. A unique patented whirlpool system with 300% better output performance than its competitors.
2. 100% completely self-draining jet technology.
3. All products covered by comprehensive manufacturer's guarantee.
4. Premier service tailored to your needs, any jet combination, and bath shape, anywhere in the UK.
5. All BIOJET whirlpools and spas are manufactured in our UK plant to guarantee quality every time.

'UPGRADE' YOUR WHIRLPOOL OR SPA EXPERIENCE...

DEAD SEA BATH SALTS 1kg or 250g

The Dead Sea water composition is unique in that it contains about 25% solid matter of which 7% is salt and has the highest levels of magnesium and calcium of all salt water in the world. Medical research has shown this mixture of powerful minerals and salts can offer relief from various skin complaints, can revitalise the body as well as being used as a body scrub. Available in Mint, Lilac, Citrus, Hyacinth, Eucalyptus, Orange, Honeysuckle, Rosemary, Natural, Green

Order Code: KDSBS 1kg **£17**

Order Code: KDSBS25 250g **£10**

RELAXAN PERFUMED OILS 250ml

This range of oils has been specially developed for whirlpool hydromassage bathing by providing the perfect balance between scent and oil, assisting the body's own natural healing processes and enhance wellbeing. The bath oils float on the water surface and will not dissolve in the bath water. They are low foaming, leave no grease stains in the bath and are harmless to the environment. Available in Eucalyptus, Orchid, Pine Tree, Lavender, Jasmine, Rose, Lilac, Hyacinth, Rosemary, Green Tea, Honeysuckle and Lily Of The Valley.

Order Code: KPO **£17**

WHIRLPOOL CLEANER 1ltr

This product has been specially developed for cleaning whirlpool systems by dislodging dirt, residues and grease and is completely safe to use. Will provide four or five applications.

Order Code: KWC **£38**

Look out for the Premier Strength Upgrade option...

Premier Strength is a specially formulated external coating which provides an 'armourcoat' around the underside of the bath which gives it exceptional strength and heat retention properties:

MINIMAX

20 JET WHIRLPOOL SYSTEM

The unique MINIMAX system is an all water jet system that provides a gentle massage and relaxing water sound for that complete feeling of tranquility. Imagine unwinding next to a wonderfully relaxing cascade of water.

6 medium sized jets are positioned on the side walls of the bath and 4 smaller micro jets are used for the back - all with adjustable direction eyeballs, plus 2 small future jets for the feet and 8 in the base of the tub.

You control the addition of air to the system which acts like a turbocharger and increases the pressure of the water coming from all the jets. A diverter control allows you to infinitely vary the flow of water between the side jets and the base jets. It enables you to enjoy the massage action from just one group of jets or both, depending on your mood or requirements.

Available with pneumatic or electronic controls.

WHIRLPOOL SPA

24 JET WHIRLPOOL SYSTEM

£1,895

Whirlpool Spa Electronic
Order Code: KWSE

The luxury WHIRLPOOL SPA system allows you to personalise your hydro massage experience between the whirlpool and the airspa.

Each system can be operated together or independently depending on your mood.

This Whirlpool Spa has full electronic controls. The system is a combination of 6 medium sized jets positioned 3 on each side of the bath, together with 6 smaller future jets at each end of the bath for back and foot massage - ideal for, but not exclusive to, double ended baths.

An additional system that includes an air blower is fitted and introduces either air, water or a combination of the 2, through 6 special Magic Jets in the base of the tub.

A diverter control allows you to infinitely vary the flow of water between the side jets & the base jets.

AQUAGLEAM

Prevents limescale and soap scum build up

Aquaglead is an advanced coating that is applied to the glass during the manufacturing process. The invisible coating bonds to the glass surface to create a smooth barrier that repels dirt, water and limescale. The Aquaglead coating is guaranteed for five years.

The walk-in enclosure shown here with Wetroom Conversion Kit.

The Wetroom Conversion Kit is the easy way to transform an enclosure into a modern wetroom. 1160818
£69

TECHNIK 6+ CONTEMPORARY SHOWER ENCLOSURES

Top cover caps

Technik 6mm Doors come with Chrome Plated cover caps, these cap the top of the profiles, giving a finished appearance from every possible angle.

Technik Easy Clean Glass

A Nano Technology coating is applied at the glass factory on all Techniks 6 mm shower enclosures and doors. This hydrophobic coating seals microscopic holes in the glass making water stream off the glass, preventing limescale and soap deposits, so keeping your Techniks 6mm enclosure looking as good as new is much easier to do.

Adjustable wall profiles

Not every home has perfectly straight walls, all of our doors feature plentiful adjustment in each wall channel, allowing a quick and seamless installation in every situation.

Toughened safety glass

All Technik shower doors and screens are made from high quality toughened safety glass conforming to EN12150-1.

Extension Profiles available

Sometimes when replacing a shower door you may be left with a non-standard opening. Most Technik doors can be used with extension profiles enabling our standard doors to be adapted to fit most openings.

Technik 6+ metal handle

Power shower suitable

All Technik shower enclosures are tested to ensure they are compatible for use with power showers.

Quick release double roller system

All sliding Technik 6mm doors have a superb quick release system, which allows you to remove the runners from the track at the bottom of the enclosure, allowing complete access to all parts of the enclosure for a thorough clean.

Magnetic closing

Technik 6mm doors benefit from high quality magnetic soft closing seals, ensuring our enclosures shut tightly and softly to contain water and give a high quality feel.

TECHNIK 8+ CONTEMPORARY SHOWER ENCLOSURES

Top cover caps

Technik 8mm Doors come with Chrome Plated cover caps, these cap the top of the profiles, giving a finished appearance from every possible angle.

Technik 8+ top roller system

Adjustable wall profiles

Not every home has perfectly straight walls, all of our doors feature plentiful adjustment in each wall channel, allowing a quick and seamless installation in every situation.

Extension Profiles available

Sometimes when replacing a shower door you may be left with a non-standard opening. Most Technik doors can be used with extension profiles enabling our standard doors to be adapted to fit most openings.

Technik Easy Clean Glass

A Nano Technology coating is applied at the glass factory on all Technik's 8mm shower enclosures and doors. This hydrophobic coating seals microscopic holes in the glass making water stream off the glass, preventing limescale and soap deposits, so keeping your Technik's 8mm enclosure looking as good as new is much easier to do.

Toughened safety glass

All Technik shower doors and screens are made from high quality toughened safety glass conforming to EN12150-1.

Technik 8+ metal handle

Power shower suitable

All Technik shower enclosures are tested to ensure they are compatible for use with power showers.

Magnetic closing

Technik 8mm doors have a special aluminium profile that catches the glass when fitted in a recess.

When used with a side panel there is a plastic extrusion which closes onto the side panel glass.

Quick release double roller system

All sliding Technik 8mm doors benefit from high quality rollers ensuring an ultra smooth feel when opening & closing.

Surround yourself in quality

Adding a touch of elegance to the AQUA range, the AQUA 6 collection of shower enclosures and bath screens has a variety of features and innovations to delight customers and installers alike.

Semi-frameless shower enclosures come in a variety of configurations to suit any household requirement, while reversible fitting and 25mm of adjustment makes installation a breeze. To make installation even easier, our innovative Quick Fit Dovetail Technology allows pieces to fit together swiftly and more importantly securely.

Excellence in every aspect

With AQUA 6, outstanding performance and ease of use is a design feature, not an afterthought. The collection boasts Aquaglean technology, which resists limescale build up, 1900mm high, 6mm thick glass and concealed fittings.

We think enclosures should look good from the inside too, so we use a concealer strip to hide the smooth glide roller bearings.

Little features make a big difference

AQUA 6 features are more than just eye candy. Chrome plated towel rails and handles with soft grip inserts provide a touch of class, while double wheel bearings on our doors deliver smooth, reliable movement every time. Our sliding doors are up to 1700mm wide, suitable for bath replacements.

On a practical side the sliding door, quadrant and off-set quadrant doors are removable, which makes cleaning and installing them even easier.

Other features such as chrome plated fixings and bearings, plus magnetic door seals that are guaranteed not to let you down prove that the AQUA 6 is prepared to go a step beyond its competitors. This is confirmed by the reassurance of CE marks and a lifetime guarantee.

Exquisite enclosures

AQUA 8 represents the ultimate shower experience for customers and the ultimate in installation innovation for the trade. Across 3 different styles for every detail has been carefully considered to make AQUA 8 the only choice for bathrooms of distinction - details such as all metal components, concealed fittings, towel rails, chrome finishes on all covers and hinges that match elegant droplet shaped, soft grip chrome handles.

Glass is glass though, right? Not with AQUA 8. The 8mm toughened glass is robust to stand up to the demands of busy modern lifestyles and is up to 2000mm high for maximum coverage. Our Aquaglean coating helps prevent the build up of lime scale, while CE marks and a lifetime guarantee give you peace of mind that is built to look good and built to last.

Aqua 8 Glide

The AQUA 8 Glide range boasts 25mm adjustment per profile and uses double wheel bearings at both the top and bottom of the door for the smoothest action possible. Not only is cleaning easy thanks to removable doors but so is installation, thanks to new Quick Fit Dovetail Technology, while the moving parts and door fittings are skilfully hidden with a concealer strip, contributing to attractive enclosures that open with ease.

Aqua 8 Hinge

AQUA 8 Hinge enclosures are backed by an installation revolution. Dynamic Adjustment Technology allows perfect alignment of panels post installation using a simple key mechanism. Outward opening hinges are sleek and minimal for a subtle appearance; a feeling that is reinforced by concealed wall fittings. With a square bath screen added to a comprehensive range of enclosures, there's a stylish solution for any room.

The key to instant adjustment

What really sets the AQUA 8 Hinge line apart from other frameless enclosures is the ability to easily and quickly make fine adjustments during installation to achieve a perfect fit and finish. Thanks to Dynamic Adjustment Technology and a stylish two key tool, not only can the product adjust in and out from the wall by a generous 25mm, but it can also angle across the wall as well, both done with the simple turn of a key. This means that the panel joints can be precisely matched for perfect door action and a leak free seal, the ultimate solution for a quality fit.

OXYGEN8

Contemporary designer enclosures

The Oxygen8 range breathes life into your daily routine. Treat yourself to one of our contemporary designer enclosures or wet room style glass panels - it's the perfect way to start or finish your day.

Quality construction guaranteed

All Oxygen8 enclosures come with a lifetime guarantee against all manufacturing defects, Guardshield glass protection coating and 8mm toughened safety glass come as standard. Quick release brass and stainless steel rollers allow the doors to swing away for ease of cleaning. Fully concealed wall fixings with uniquely shaped concave aluminium trim strip and the wall profiles give a maximum of 40mm adjustment, 20mm each side, for out of true walls. The single door option can be fitted with either left or right hand opening.

The Technik 8mm modular shower panels can be fitted either on a shower tray or directly on the floor. Quite often 2 panels are used in conjunction to create a walk-in enclosure. The hinged 250mm extension panel is a great addition to the range. They also benefit from the same easyclean glass as the rest of the Technik range of enclosures.

SYNERGY WETROOM FLOOR SYSTEM

Three steps to the complete wetroom solution

A complete system designed to allow the simple and cost effective creation of a wetroom shower.

The three main issues encountered when creating a wetroom - gradient, drainage and waterproofing - have been addressed simply and successfully in this product.

Choose the nearest size of floor former to suit your installation. Then, if required, select your preference from the wide range of shower screens and enclosures in this brochure.

- 1 Gradient (floor former)
- 2 Drainage
- 3 Waterproofing (tanking membrane)

SYNERGY WETROOM FLOOR SYSTEM

Synergy Wetroom Floor System

Three steps to the complete wetroom solution

1 Gradient (floor former)

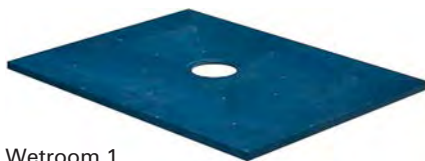

The first step to any successful wetroom shower is to ensure that the water travels in the right direction.

The Synergy wetroom floor former has four 17mm gradients to ensure your water drains away consistently.

The floor former is just 30mm in depth and replaces your existing floor section.

The Synergy floor former is suitable for timber and concrete floors. Simply choose the nearest size for your showering area.

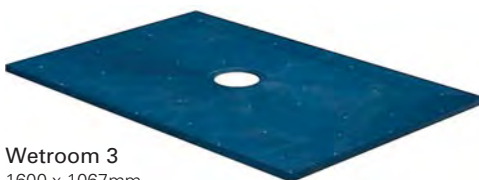

Wetroom 1
1200 x 900mm
30mm depth

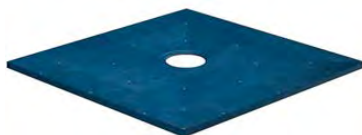

Wetroom 2
1400 x 933mm
30mm depth

Wetroom 3
1600 x 1067mm
30mm depth

Wetroom 4
1000 x 1000mm
30mm depth

2 Drainage

Now that you have ensured your water travels towards the drainage point, you need to ensure the water is removed safely. This is achieved by using our stainless steel waste gully that comes complete with your chosen floor former. The gully is height adjustable for varying tile depth.

3 Waterproofing (tanking)

Finally you need to ensure that your room is completely watertight using the Synergy 5m² tanking kit. This complete tanking kit is applied onto a thin bed of flexible tile adhesive. The 5m² kit comprises:

- 5m x 1m waterproof matting
- 1 x external preformed corner
- 4 x internal preformed corners
- 12.5m joint tape

Synergy Wetroom System 1
WET1 1200 x 900mm **£525**

Synergy Wetroom System 2
WET2 1400 x 933mm **£580**

Synergy Wetroom System 3
WET3 1600 x 1067mm **£650**

Synergy Wetroom System
WET4 1000 x 1000mm **£499**

Synergy Tanking Kit
TANKKIT 5m² **£199**

waste gully included
with each floor former

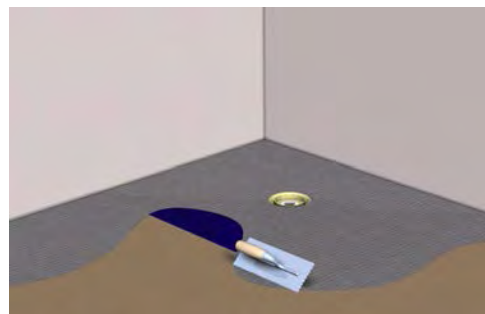

To purchase separately
order code:
ICD1 **£189**

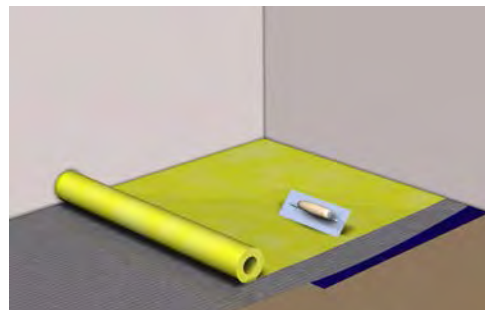

Recommended underfloor heating kit for a quicker drying floor.

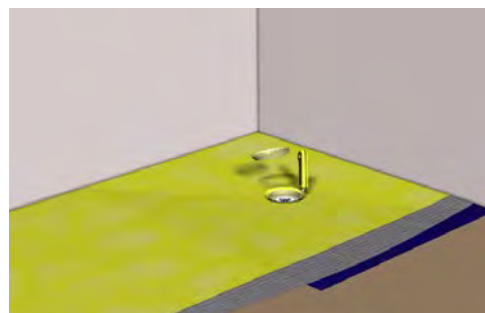

Select from a range of underfloor heating mats shown on page 254

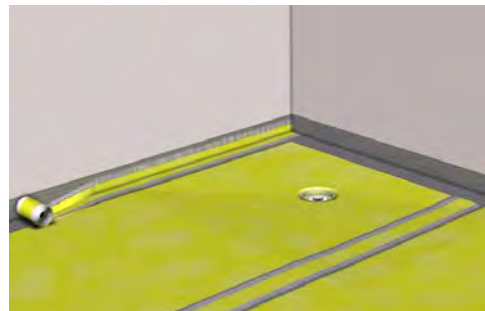

Apply tile adhesive to your floor former and floor substrate using a small notched trowel.

Place the Synergy tanking kit onto the floor and smooth out using the flat edge of the trowel.

Press the tanking kit into the waste base plate and secure with clamping kit.

Using the jointing tape provided, cover all joints and fit preformed corners.

Tile the floor as normal.

WETROOM PACKS

We've put together a series of the most popular packs that will enable you to create the wet room solution that's perfect for your needs (don't forget your tanking kit, see page 167).

Step 1: Simply choose the wetroom deck that meets your size requirements

Step 2: Choose the deflector screen(s)

Step 3: Add your choice of shower from the extensive collection starting on page 191

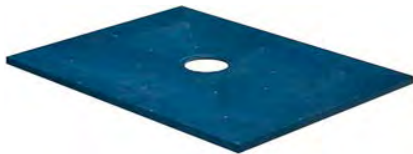

PACK 1: £775

PACK 2: £779

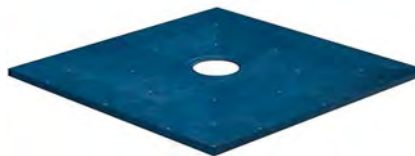

PACK 3: £1,105

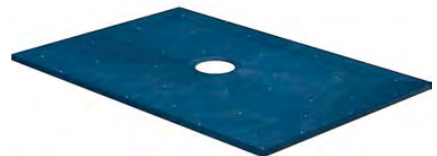

Comprising:
1200 x 900mm wetroom deck
£525
Order Code: WET1
(complete with waste gully)

800mm Technik 8mm glass deflector
£250
Order Code: TEC6SD061

Comprising:
1000 x 1000mm wetroom deck
£499
Order Code: WET4
(complete with waste gully)

1000mm Technik 8mm glass deflector
£280
Order Code: TEC6SD063

Comprising:
1600 x 1067mm wetroom deck
£650
Order Code: WET3
(complete with waste gully)

700mm Technik 8mm glass deflector
£220
Order Code: TEC6SD068

760mm Technik 8mm glass deflector

COMMERCIAL

NON-CONCUSSIVE SHOWER SYSTEMS

£91

Non concussive shower system

Order Code: A3787 non concussive shower valve **£41**

Order Code: CK400 fixed head and arm **£50**

This non concussive shower system provides a timed flow of water (factory set to 15 seconds), to prevent wastage & promote water efficiency. Ideal for use in gyms & leisure centres.

Use an Air Head shower for up to 30% less water!

As water flows into your shower head air is drawn into the head at a rate of 3 cubic litres of air for every litre of water.

This fusion releases large numbers of oxygen ions, enlarging the water droplets and making them lighter resulting in an enhanced showering experience whilst using 30% less water.

New Air Showers heads give you power shower performance but without the water consumption, saving you money and saving water. Great for the environment, great for your pocket.

At just 2mm thick our fixed shower heads are perfect for replacing your existing shower head or as part of a new installation and can be mounted on the wall or ceiling by using one of our complementing shower arms.

Our handsets work in just the same way, drawing in air to give excellent performance on either low or high water pressure systems and are perfect for use with our complementing slide rail kits or just to replace your existing handset.

AQUA

ALL-IN-ONE POWER SHOWER

£257

Aqua All-in-one thermostatic power shower. When the shower is set to a chosen temperature, this will be maintained and will not exceed that limit, even when the incoming water temperature or pressure changes. This eliminates any sudden rise or fall in shower temperature.

Order Code: G2000LX/001

This model comprise of a mixer valve combined in one integral unit with a powerful pump for high performance showering. Both are suitable for all gravity fed water systems. These valves use cold water from the storage tank and stored hot water from the cylinder.

How to convert to electric

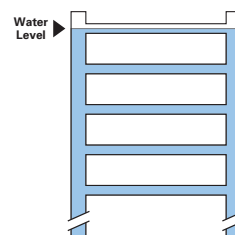

After unpacking your new rail, fit the blanking plug and air vent correctly in the top of the ladder rail.

Turn the towel rail upside down allowing you access to the two tapings at the bottom. Make sure these tapings are clean and free of debris.

Using a funnel empty the required amount of Arley Thermo Oil (as shown in the Loco information grid) into the towel warmer.

With the funnel still in place slowly fill the towel rail with the required amount of tap water (as shown in the Loco information grid). After each litre, tilt the towel rail to the left & right, as this will help remove any trapped air.

As the water begins to rise you want to fill up to approximately half of the bottom bar, as shown. This is to allow for expansion when the towel rail is in operation.

Now the towel rail is filled, insert the electric element and the blanking plug into the desired side.

The towel rail is now ready for fitting and connecting to a fused spur electric supply*

How to convert to dual fuel

After unpacking your new rail, proceed as per a normal heating system installation.

You must have purchased the correct size element (as shown in the Loco information grid) and a 'T'-piece, often referred to as a "dual fuel elbow"

Fit the elbow to the desired side of the rail. Screw the electric element through the elbow and into the towel rail.

Complete the installation by piping water into the towel rail and connecting the element to a fused spur electrical supply*

*Please note: It is recommended electricians should be fitted by a qualified electrician.

1000mm waterproof PVC shower panelling

Waterproof panelling made easy.

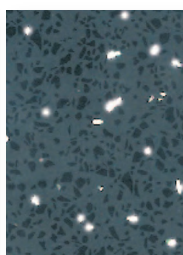

A stunning range of 1000mm wide wall panels for use in wet and dry areas. Widepanel is a high quality waterproof rigid PVC shower panel that is Class 1 fire rated, making it ideal for both domestic and commercial applications.

They are robust, easy to cut and offer a variety of fixing options; panelling can be stapled, panel pinned, glued or screwed onto batons or directly to the wall. It is recommended that only Wetrooms adhesive sealant and cleaner are used.

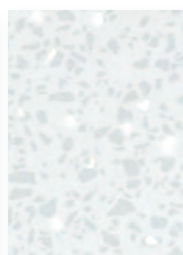

All panels feature a 100% waterproof PVC core, are light and easy to fit with no wet trades required for installation. The virtually maintenance free surface is suitable for both wet and dry areas in showers, bathrooms, kitchens, conservatories, extensions and utility rooms and is non-porous, hygienic and mould free.

Showerlite Extractor Fan

Our most popular extractor fan, this 'all-in-one' solution provides a complete kit ready to install.

The in-line fan has an extremely quiet motor which has an extract rate of 85m³/hr, 23 litres per second.

Designed for safe ventilation of bathrooms, toilets and shower rooms, the Showerlite extractor fan removes any risk of an electric shock in wet areas as the fan is remotely mounted.

The Showerlite can be used within the splash area of the shower or bath and is powered by a remote safety isolating transformer. The pack includes light and fitting incorporated into a circular diffuser complete with transformer, inline axial fan, PVC ducting and external wall grill.

UNDERFLOOR HEATING

Warm Floors & Primary Heating

- Ideal for refurbishment or new build projects
- Install on top of suspended timber floors or solid concrete
- Heating cable has exceptionally small profile
- Ideal for installation within the adhesive layer - installers' preferred choice
- No need to remove existing ceramic floor tiles, install the ultra thin mats on top of existing tiles and then tile over them as normal

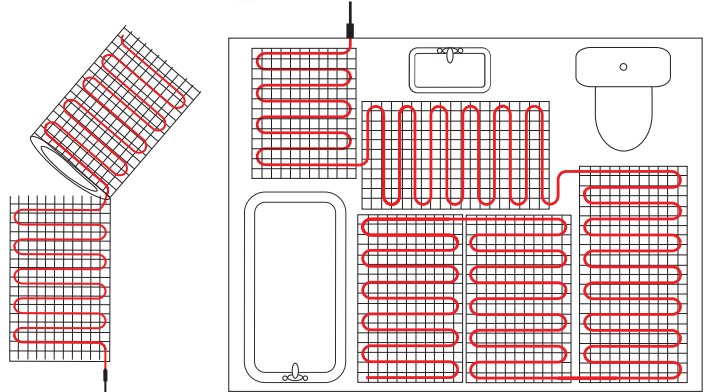

Installation

Synergy heating mats have self adhesive tapes to stick them to the floor during installation. Just roll out the mat and remove the wax backing tape as you go to hold the mat in place.

When you get to a wall, just cut across the mesh backing (but NOT the heating cable) using scissors and then turn the mat. Continue like this until you have covered the desired floor area. You don't have a return cable to worry about because the cable has only one cold tail.

Never bury or try to hide the cable. If necessary start again. If you have ordered the wrong mat contact your supplier. The diagrams shown are for illustration purposes only and are not a substitute for the detailed installation instructions supplied with the product.

100 W/m² heating mats for timber sub-floors

Order Code	Heated Area	Heating Watts	Price

- S3000 PolarW Polar White **£110**
 S3000 Silver Silver **£120**

Vysa-Pron™ MAX Insulated Tile Backer Board

has been developed specifically to provide the thermal insulation needed to prevent downward heat loss of tile and stone floors. Vysa-Pron™ MAX can be fitted directly over floor boards, chipboard and concrete floors and is an excellent addition to any underfloor heating system.

Vysa-Pron™ MAX can be used to prepare an uneven sub-floor instead of using a latex self-levelling floor smoothing compound.

- S2452 6mm thick (sheet size 0.75m²) **£26**
 S2453 10mm thick (sheet size 0.75m²) **£29**

BATHROOM TV

26" EDGE, DIGITAL WATERPROOF TV

The ultimate in bathing entertainment, the 26" waterproof TV brings the home cinema experience to your bathroom. It can also be used outdoors & comes with floating remote control & Bluetooth connectivity to enjoy your favourite music.

- High bright, WXGA LCD TFT Panel
- PAL and DVB-T MHEG5 dual tuner built-in
- Toughened glass screen – Clear or Mirror
- IPX6 – suitable for both indoors or outdoors
- Connects to separate waterproof speakers
- Bluetooth – connect your music!
- Comes with floating waterproof remote control

TV2600B 26" clear finish **£1,395**

TV2600M 26" mirror finish **£1,395**

Box Contains: Fully waterproof LCD TV, 2x waterproof ceiling speakers, waterproof remote control, cabling required and user manual.

19" WATERPROOF LCD TV

Looking for a sense of hotel luxury, then our 19inch unit is the one for you. Used in hotels worldwide, this TV gives the bathroom the ultimate finishing touch. The 19inch unit is also available in a grey-style mirror finish, has HDMI input, remote SKY eye and is fitted with Bluetooth for connectivity to your favourite music.

- High bright, WXGA LCD TFT Panel
- PAL and DVB-T Mpeg4 dual tuner built-in
- Toughened glass screen
- IP67 – suitable for both indoors or outdoors
- Can be recessed, or mounted - using VESA fixings
- Connects to separate waterproof speakers
- Choice of finishes (either mirror or clear glass)
- Bluetooth – connect your music!
- Built in SKY remote eye
- Comes with floating waterproof remote control

TVIF1900B 19" Clear finish **£995**

TVIF1900M 19" Mirror finish **£995**

Box Contains: Waterproof LCD TV, 2 x waterproof ceiling speakers, floating waterproof remote control, cabling required and user manual.

7" WATERPROOF LCD TV

The 7inch TV may be the baby of the family, but with an amazing high-bright panel, it certainly won't go unnoticed! Both the 7inch & 19inch TVs have built-in digital tuners, as well as heated glass screens (to stop misting) and come with 2 x waterproof ceiling speakers and a 'floating' fully waterproof remote control, as standard. These LCD TVs come as complete sealed units (Waterproof Rated IP67), which can either be recessed or wall-mounted.

- High bright, WXGA LCD TFT Panel
- PAL and DVB-T Mpeg4 dual tuner built-in
- Toughened glass screen
- IP67 – suitable for both indoors or outdoors
- Can be recessed, or mounted - using VESA fixings
- Connects to separate waterproof speakers
- Comes with floating waterproof remote control

TVIF701 7" LCD TV **£399**

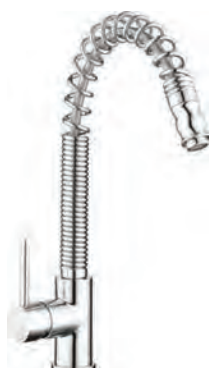

Box Contains: Waterproof LCD TV, 2 x waterproof ceiling speakers, floating waterproof remote control, cabling required and user manual.
